DETAILED ACTION***Election Restriction***

Claims 1-6, 18 and 19 are generic to a plurality of disclosed patentably distinct species comprising pyridyl, thienyl, furyl and other hetero groups. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

The disclosed species elected will be used as a starting point to make a restricted group based on fair interpretation of the principals of legal and chemical equivalence.

Applicants are given a shortened statutory period of ONE MONTH for an election, even though it may be traversed.

A failure to elect will be considered non-responsive and would lead to the abandonment of the case.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Steven Scott on 6/5/2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
